HPMC OCCUPATIONAL
MEDICAL SERVICES

TO: DOE and Hanford Site Contractors
FROM: Hiram Seth Whitmer, President and Program Manager, HPMC
Occupational Medical Services
SUBJECT: HPMC OMS Limited Services

Effective March 25, 2020, HPMC OMS is operating with limited services to support essential personnel while the Hanford Site is in an essential mission critical operations posture. Due to infection control procedures and limited availability of personal protective equipment, some exams will be modified.

If you are essential on-site personnel (as indicated by your manager for this event) and are required to return to work following illness with COVID-19 symptoms, **CALL 376-3333 BEFORE COMING IN.** This will allow our medical provider to assess the care needed to return you to work.

Please call our medical scheduler at 376-9997 to schedule essential return to works, separations, and new hires. Existing appointments for essential on-site personnel will be accommodated. All other scheduled appointments will be rescheduled upon return to normal operations.
