From: CHPRC Employee Concerns Program

To: CHPRC Employees (please cascade)

Subject: COMMITMENT TO PROVIDING AVENUES FOR EMPLOYEE CONCERNS

CHPRC is committed to ensuring our employees have effective avenues for resolving employee concerns associated with health, safety and environmental protection and offers various employee concerns alternatives. Our goal is to sustain an open work environment and create a place where employees feel free to raise ideas and concerns.

As a reminder, CHPRC offers several options for employees and subcontractor personnel to voice their ideas and concerns including:

- Direct management (manager or supervisor)
- Employee safety teams
- [HAMTC Safety Representatives](#)
- [Human Resources](#)
- [Diversity and Inclusion](#)
- RL Office of Special Concerns at 509-376-6331
- RL Hotline at 509-376-1934
- CHPRC Hotline at 509-376-3999
- Jacobs' Integrity Hotline at 844-543-8351
- "[Just Ask](#)" mailbox

In addition, our [Employee Concerns Program](#) (ECP) provides employees and subcontractors another avenue to address issues. The ECP provides an independent framework to identify, report and resolve concerns related to safety, health, security, quality, the environment and management.

CHPRC is committed to the free flow of information where we work together to meet DOE's cleanup goals for the Hanford Site. Contact Robert Boykin at 509-376-7160 or

stop by the ECP office at the Federal Building, 825 Jadwin Avenue, Room 568, with your questions or concerns.

Please use one of the above avenues if you want to raise an issue.
