- Less Than HazCat 3 : Excluded from USQ
Exclusion Reason:
Excluded per Section 1.3, PRC-PRO-NS-062, Rev. 2
- Plutonium Finishing Plant : Excluded from USQ
Exclusion Reason:
Excluded per Bulleted List of Exclusions, PRC-PRO-NS-062, Rev. 2
- Transportation : Excluded from USQ
Exclusion Reason:
Excluded per Bulleted List of Exclusions, PRC-PRO-NS-062, Rev. 2

CHANGE SUMMARY

Description of Change

Changes to policy made in response to CR-2015-0858, Action #2. The condition report resulted from an internal EMS audit conducted in April 2015.

CH2M HILL Plateau Remediation Company Environmental Policy**Published Date: 08/06/15****Effective Date: 08/06/15****1.0 POLICY**

This Level 1 Policy applies to CH2M HILL Plateau Remediation Company (CHPRC) and all CHPRC workers.

The CHPRC is committed to safely and sustainably protecting the environment and the public while meeting the goals of cleaning up the Hanford Central Plateau and ensuring protection of the Columbia River. Our Integrated Safety Management System and Environmental Management System (ISMS/EMS) provide the framework to accomplish these goals. To achieve our environmental and safety goals, CHPRC will work collaboratively with the U.S. Department of Energy (DOE), Site contractors, regulatory agencies, Tribal Nations, stakeholders, and the public to maintain an EMS and to:

- Comply with applicable environmental laws, regulations, directives, permits, and other binding requirements that affect environmental aspects.
- Promote a “Target Zero” culture to minimize environmental impacts.
- Determine on an annual basis the aspects of our operations that impact the environment and establish objectives and targets for environmental improvement.
- Conduct periodic self-assessments to monitor progress against our goals and to measure environmental performance.
- Continually improve our environmental performance and the performance of our EMS, while emphasizing pollution prevention and efficient use of resources.
- Minimize environmental impacts by considering and utilizing cost-effective waste minimization, pollution prevention, energy and chemical management, and resource conservation opportunities during work planning, decision-making, procurement, design, training, and daily work activities.
- Identify and employ a risk-based approach to mitigate existing adverse environmental conditions. Anticipate, eliminate, or mitigate future environmental impacts before they pose a threat to our environment.
- Promptly report and seek to correct environmental incidents and deficiencies.
- Share information with our employees and stakeholders that is timely, accurate, and meaningfully relates to our environmental cleanup mission activities and goals.
- Ensure this environmental policy is effectively communicated to and understood by all CHPRC workers. The policy shall be made available to the public.

All CHPRC managers are responsible for implementing this environmental policy within their areas of responsibility. All employees and persons working on behalf of the organization are responsible for conducting work consistent with this policy and are accountable for conforming to this policy. Senior management is responsible for reviewing performance against this policy and is committed to its successful implementation.
