10.2 Reimbursement of Travel Expenses

1. Travel Authorization: Only when authorized in advance by CHPRC as part of the Contract, will Contractor personnel be reimbursed for travel expenses incurred in performance of this Contract. Expense reimbursement is limited to costs incurred for lodging plus meals and incidental expenses (M&IE) considered reasonable, allowable, and allocable, and that do not exceed the maximum per diem rates in effect at the time of travel as set forth in Federal Travel Regulations (FTR). Contractor is expected to take reasonable steps to minimize the amount of travel expenses. Links to the FTRs and current per diem rates can be found on the GSA web site (www.gsa.gov)
2. Eligibility: Expense reimbursements will only be allowed for contractor personnel who travel from their permanent residence, if beyond a 100 mile radius of the temporary work location, for temporary assignment to the project site.
3. Invoicing: Expense reimbursement requests must be invoiced in accordance with contract invoicing requirements in a timely manner, and must identify the name of the

**300-296 Soil Removal Project

- traveler, destination, purpose and date of the travel as well as document any required CHPRC pre-approval. Submittal of an invoice to CHPRC that includes travel expenses signifies Contractor's certification to all requirements identified herein.
4. Receipts: Unless agreed in advance by CHPRC, invoices must include original or legible copies of receipts to support the actual lodging and travel expenses incurred. Receipts for M&IE expenses are not typically required.
 5. Cancellation: When travel, arranged in accordance with these requirements, is cancelled in writing by CHPRC, airline cancellation or rebooking charges may be invoiced and reimbursed provided that supporting documentation showing authorized travel and subsequent cancellation are provided.
 6. Short-Term Assignments of thirty (30) Days or Less: Lodging and M&IE will be paid in accordance with the rates established by the Federal Travel Regulations unless otherwise specified in this Contract.
 7. Rates: Expenses will be reimbursed using the following guidelines:
 - a. Transportation Other than Airline: Reimbursement of transportation costs will be at the current FTR per mile rate, for travel by personal automobile, or actual fares for other public conveyance, reasonably incurred by contractor's personnel in traveling by the shortest and most direct route from his/her home office to (Hanford Site) Richland, Washington, or to other such locations and return, at the request of CHPRC. When travel is by automobile the most direct route must be used. Local mileage costs while at the Hanford Site will not be reimbursed, unless specifically authorized in advance by CHPRC.
 - b. Transportation by Airline: Every reasonable effort must be made to plan required travel to obtain the lowest advance-purchase fares available. Actual receipts must accompany invoices for all airfare costs.
 - c. Car Rental: Travelers must use the least expensive compact car available. Should a compact or intermediate size vehicle not be available, use of a more expensive vehicle must be approved in advance by the CHPRC Contract Specialist and must be limited only to the time necessary to obtain a lower cost alternative and include a certification by the employee of the effort made to obtain the compact vehicle. Actual receipts must document all car rental and fuel costs. NOTE: A Pre-Paid refueling option and optional rental car insurance will not be reimbursed.
 - d. Personally-Owned Vehicle: Instead of using a rental car, a personally-owned vehicle may be used if determined to be more cost effective. However, arrangements must be pre-approved by the CHPRC Contract Specialist. CHPRC assumes no liability for accidents when personally owned or rental vehicles are used. Contractor retains all risks and liabilities associated with using personally-owned or rental vehicle.

**300-296 Soil Removal Project
A/C-D-Cell Dam Assemblies**

- e. Lodging: Lodging will be reimbursed at the current FTR rate or at the actual cost if less than the allowable FTR rate. Actual receipts must document all lodging costs being invoiced under this contract. If contractor employee moves from hotel lodging into residential accommodations earlier than 30 days, the lodging will be reduced to 55% of the FTR rate day effective date of establishing residential accommodations.
 - f. Meals and Incidental Expenses (M&IE): M&IE will be reimbursed at a flat rate per day; not to exceed the limits specified for the geographical location in the FTR. The daily living expense (M&IE) will be prorated per the FTR during the first and last day of travel, inclusive of weekend trips home. Weekend stay-over(s) are paid when continued work is required during the following week.
8. Long-Term Temporary Work Assignments greater than thirty (30) days, but less than three hundred sixty-five (365) Days). M&IE and lodging reimbursement limits will be reduced in accordance with Department of Energy (DOE) policy for extended travel assignments exceeding thirty (30) days (ref. DOE-AL-2013-01).
- a. Lodging: For the first sixty (60) days and last thirty (30) days of a long-term assignment, CHPRC will reimburse costs associated with lodging at the lesser of actual cost or 100% of the FTR authorized rate at the assignment location. The intervening days will be reimbursed at the lesser of actual cost or 55% of the FTR rate.
 - b. M&IE: For the first thirty (30) days and last thirty (30) days of the assignment, CHPRC will reimburse costs associated with M&IE at the lesser of actual cost or 100% of the FTR M&IE rate for the assignment location. The intervening days will be reimbursed at the lesser of actual cost or 55% of the FTR rate. The M&IE will be prorated per the FTR during the first and last day of travel, inclusive of weekend trips home.
 - c. Travel Home: When on a long-term work assignment (more than 30 consecutive days), one (1) trip home, to the primary residence, after each four (4) consecutive weeks of assignment (on travel status) to the Contract will be reimbursed when approved in advance by CHPRC as follows:
 - i. Travel home must be booked via the most economical method and direct route in accordance with FTR guidance. If the project work assignment or an urgent situation prevents the Contractor employee from obtaining a minimum of fourteen (14) day airfare rates; approval must be obtained from CHPRC prior to booking the airfare. If a personal vehicle is used to return to the primary residence, mileage will be paid at the current FTR rates up to a total not to exceed the fourteen (14) day advance airfare value.

**300-296 Soil Removal Project
A/C-D-Cell Dam Assemblies**

- ii. While traveling and at home, lodging and M&IE expenses are not reimbursable.
 - iii. The trips home are neither “bankable,” transferable nor cumulative.
9. Permanent Work Assignments: Unless pre-approved by CHPRC, work assignments of more than three hundred sixty-five (365) consecutive days are considered permanent. All incurred travel and living expenses, after three hundred sixty-five (365) consecutive days, are not reimbursable without written pre-approval from CHPRC. The consecutive-day count for Contractor personnel who change employment to another contractor will not restart, but continue from the original contract assignment date.

10.3 Contractor Cost and Pricing Data

1. Before awarding a contract or issuing a modification to an existing contract expected to exceed \$750,000, the Contractor must provide cost or pricing data except where the exceptions in paragraph 2, below, apply. If an exception does not apply, cost or pricing data is required before accomplishing any of the following actions expected to exceed the current threshold or, in the case of an existing contract, the threshold specified in the contract:
 2. The award of any negotiated contract (except for undefinitized actions such as letter contract).
 3. The modification of any sealed bid or negotiated contract (whether or not cost or pricing data were initially required). Price adjustment amounts must consider both increases and decreases (e.g., a \$250,000 modification resulting from a reduction of \$500,000 and an increase of \$300,000 is a pricing adjustment exceeding \$750,000). This requirement does not apply when unrelated and separately priced changes for which cost or pricing data would not otherwise be required are included for administrative convenience in the same modification.
 4. Exception to cost or pricing data requirements. The submission of cost or pricing data shall not be required:
 5. When the prices agreed upon are based on adequate price competition.
 6. When the prices agreed upon are based on prices set by law or regulation.
 7. Commercial items where catalog or market prices are established. Also, items included on an active Federal Supply Service Multiple Award Schedule contract.
 8. When modifying a subcontract for commercial items.
 9. The Contractor shall prepare and submit cost or pricing data and supporting attachments in accordance with Table 15.2 of FAR 15.408 or in a manner substantially similar.

**300-296 Soil Removal Project
A/C-D-Cell Dam Assemblies**

10. As soon as practicable after agreement on price, but before contract award, the Offeror shall submit a Certificate of Current Cost or Pricing Data, as prescribed by FAR 15.406 2.
11. If the Contractor intends to issue a subcontract in performance of this requirement and it is expected to exceed \$750,000, the lower-tier contractor is also subject to the above requirements.
